# Delivering Quality Growth

## Cal Mag & Boron Plus™

Product Code: GG0098

The N : Ca ratio of 1 : 1 is perfect for plant establishment and during rapid cell division phases or periods of stress where both growth and cell strength needs to be maintained.

Magnesium maintains turf colour as it is a key component of chlorophyll production.

Both magnesium and boron aid in the translocation of calcium to growing points.

### Benefits of Cal Mag & Boron Plus

- High analysis provides for economic and efficient supply of nutrients and the capacity to reduce rates
- Maintains plant Ca : Mg ratios
- Boron to assist calcium mobility
- Improves plant cell strength
- Chloride free

**Cal Mag & Boron Plus can be blended with zinc, manganese, copper and iron for enhanced uptake.**

Contact SLTEC® to discuss your specific nutritional requirements.

### Guaranteed Analysis

Nitrogen (N)	11.9%
N as nitrate	11.9%
Potassium (K)	0.1%
Calcium (Ca)	11.9%
Magnesium (Mg)	3.2%
Boron (B)	0.2%
Fulvic Acid	0.5%
Specific Gravity	1.469 kg/L
pH	3.0 - 6.0

### Typical Application Rates

#### Foliar:

3 - 5 mL per square meter with at least 10 mL of water per square meter

Apply every 8 weeks or as required.

**Compatible with QuadSHOT® as a tank mix.**
